Mancetter Quarry Proposed Extension

Restoration Aims
- To establish a landform together with land use features most appropriate to the landscape character and its setting.
- To increase local amenity use and value of the Site and make connections into the local footpath/bridleway network.
- To create new wildlife habitats throughout the Site that can be sustainably managed and maintained to promote and increase the potential for biodiversity.
- To return land back to productive agricultural use.

Legend
- Application Site Boundary
- Proposed Restoration Land Uses
  - woodland areas
  - agricultural land / (neutral grassland areas)
  - wetland
  - natural regeneration of scrubland
  - broadleaved trees and coniferous trees
