Figure 7-3: Ecology Constraints and Opportunities Map

- Retained trees with bat potential
- Trees with bat roost potential to be removed
- Buildings with bird nesting and bat roost potential
- Sand martin nests
- Ponds with great crested newts
- Retained ponds
- Ponds to be removed
- Japanese knotweed
- Retained hedgerows
- Hedgerows to be removed
- Dormice confirmed
- Site boundary
- 50m buffer of site
- Potential amphibian and reptile habitat
- Wildlife sites
- Grass snakes observed
